Each of the vice presidents was asked to provide a brief update from their respective areas to share with the Board of Trustees. The updates from each area are outlined in this report.

**Vice President – Administration**

- For the spring 2014 semester, the Bookstore’s book rental program provided 310 different titles for rent and rented over 1245 units/books. This saved the students approximately $51K.

- The bookstore staff also supplemented its book purchases from vendors with book purchases from various online providers finding 945 units/books online at lower costs. This in turn saved the students another $39.5K.

**Vice President – Planning, Research & Organizational Development**

- Over spring break Information Technology migrated the faculty and staff email system from an internally hosted system to the cloud using Office 365. The student email migrated to Office 365 last summer.

- This move provides more capacity for faculty and staff email storage and positions the college to transition more IT services to the cloud.

**Vice President – Student Learning & Economic Development**

- Men’s Basketball team won the conference with a perfect 10 and 0 record. They beat San Jose City College in the first round of the play-offs before falling to #1 seed San Francisco City College on the road. Coach Russ Critchfield was named Coach of the year and Arthur Caldwell of Butte was the most valuable player of the conference.

- Student JoJo Sanchez took bronze medal in Program Oral Interpretation (POI) at State Forensics Tournament.

- Auto students, as part of Skills Team USA, won the Regional Competition and will be participating in the State Competition in San Diego at the end of April.
Vice President – Student Services

- The first phase in implementing the newly-legislated Student Success and Support Program (SSSP) has begun at Butte College. One of the cornerstones of SSSP is reprioritization of the registration process.

- There are twelve distinct groups that participate in the registration process and the first group affected was continuing students. Students who believe they have a legitimate exception to the reprioritization can appeal.

- As a result of the reprioritization process, 557 continuing students were deprioritized. Of these, 56 appealed their registration priority. As of today, only three of the 56 appeals have been denied.
