What is Measure A?

On March 5, 2002, the voters in the Butte-Glenn Community College District approved Measure A, an $84.9 million general obligation bond for capital construction projects. To date, approximately $67 million has been expended.

What is the Citizens’ Oversight Committee?

As provided in Education Code §15278, the purpose of the Citizens’ Oversight Committee is to inform the public concerning the district’s expenditure of revenues received from the sale of bonds authorized by the voters in the March 2002 general election.

Message from the Measure A Citizen’s Oversight Committee

Dear Butte and Glenn County Residents:

The Measure A Citizen’s Oversight Committee is pleased to share with you the 2008-09 Annual Report. We trust that you will find the report very informative. On behalf of the committee, it has been our pleasure to have served in this capacity.

During the past year, the Committee has reviewed the following:

- Facilities plan and construction schedules;
- Impacts of state bond funding on Measure A projects;
- Reallocation of bond proceeds within the list submitted to voters;
- Cost-saving measures; and
- Financial and performance audits of Measure A proceeds.

The Citizen’s Oversight Committee is very pleased to report that significant progress has been made on new construction and renovation projects. The Butte-Glenn Community College District Board of Trustees, the administration, the staff and our committee are all committed to diligently ensuring that every Measure A dollar is spent efficiently on high quality educational facilities.

Nystrom & Company Certified Public Accountants conducted the annual audit of bond expenditures and activities for the fiscal year ending June 30, 2009. The Committee is pleased to report that the Butte-Glenn Community College District properly accounted for the expenditures of funds held in the bond funds and that such expenditures were made on authorized bond projects.

The Committee finds the Butte-Glenn Community College District to be in compliance with Proposition 39 in accounting for and expending public bond funds for Measure A. The district has exercised fiscal prudence in selecting best practices designed to expedite projects through proper planning and contract management.

The Committee is most appreciative of the detailed construction and financial information provided to us. Dr. Diana Van Der Ploeg, Andy Suleski, Mike Miller, Kim Jones, Trevor Stewart and Kim Hutchison have been extremely helpful and supportive.

Our community can take great pride in the Butte-Glenn Community College District. The continued effort to provide students with a high quality educational experience is well known.

Thank you for your continued confidence in the work of the Measure A Citizen’s Oversight Committee, the Butte-Glenn Community College District Board of Trustees, the administration and the staff of the district as they continue to keep their promises to the voters.

Sincerely,

Trish Dunlap, Chair
