About the Program

The transfer major listed here reflects the core lower division requirements for many CSU and UC campuses, particularly CSU, Chico. Students planning to transfer should contact a counselor for more information on program and transfer requirements.

The Biological Sciences transfer major is designed for students who plan to earn a bachelor's degree in Biology or a related field. This transfer major also serves as a basis for pre-medicine, pre-dentistry and pre-veterinarian students.

To obtain an Associate’s degree, students must complete both the major requirements and the graduation requirements listed in this catalog.

Note that some courses have a prerequisite (P), corequisite (C), or both (P/C). Prerequisites and corequisites are listed within each course description in this catalog.

Transfer majors designated as AA-T or AS-T are designed for transfer to a similar major at an unspecified CSU. Transfer majors designated as AA or AS are designed for transfer to the corresponding major at a specific CSU and are based on articulation (See a counselor for more information. Read about the difference between these types of degrees at the beginning of the Transfer section of this catalog).
