About the Program
The Associate in Arts in Geography for Transfer degree (AA-T Geography) creates a transfer pathway for students who plan to complete a four-year degree at a California State University. Upon completion of the AA-T degree in Geography students will possess the requisite foundational knowledge as well as the practical skills necessary for subsequent completion of the baccalaureate degree.

The associate transfer degrees (AA-T or AS-T) require completion and certification of the California State University General Education (CSU GE) or the Intersegmental General Education Transfer Curriculum (IGETC) as well as the specific AA-T or AS-T major degree requirements. Students earning either an AA-T or an AS-T will not be held to additional Butte College graduation requirements (including Physical Education and the multicultural competency). Students should work with a counselor to identify major coursework that can be used to fulfill CSU GE or IGETC categories.

To obtain an Associate’s degree, students must complete both the major requirements and the graduation requirements listed in this catalog.

Note that some courses have a prerequisite (P), corequisite (C), or both (P/C). Prerequisites and corequisites are listed within each course description in this catalog.

Transfer majors designated as AA-T or AS-T are designed for transfer to a similar major at an unspecified CSU. Transfer majors designated as AA or AS are designed for transfer to the corresponding major at a specific CSU and are based on articulation. See a counselor for more information. Read about the difference between these types of degrees at the beginning of the Transfer section of this catalog.

AA-T Degree in Geography 60 Units Minimum

Student Learning Outcomes
Upon successful completion of this program, the student will be able to:
• Identify fundamental concepts specific to physical and cultural Geography.
• Identify conceptual and theoretical models pertaining to world, regional, and local Geography.
• Apply applications associated with various thematic maps as well as use of geographical computer modeling.

Required courses for the major: 19 Units

Required Core:
GEOG 2 Physical Geography 3
GEOG 3 Physical Geography Lab (P) 1
GEOG 4 Cultural Geography 3

List A: Select two
GEOG 8 World Regional Geography 3
GEOG 10 Geography of California 3

List B: Select two
GEOG 5 Economic Geography 3
ANTH 4 Cultural Anthropology 3
GEOL 10 Physical Geology 3
